IMPROVISA LIFE IN MOTION NEWSLETTER 1 THE ARTISTS!

IMPROVISA. Life in Motion is an EU cultural project aiming to increase access to culture and heritage for the younger audiences and communities who have a difficulty in accessing museums, through the exploration of interaction tools, using digital and mobile technologies.

During the first six months of the project and after a series of online meetings, discussions and preparations, we have released a Call for Artists from 31.01.21 to 15.03.21, looking for 4 artists that will collaborate with our team in the development of art-based activities for the IMPROVISA workshops and the IMPROVISA App, during 2021 and 2022.

We have received 36 proposals and after a hard choice based on criteria such as the ideas for the IMPROVISA project and artistic background, we are glad to announce the selected artists that will collaborate in **IMPROVISA-Life in Motion**.

The artists are:

**Smaragda Nitsopoulou
(Greece)**

Ema Ferreira (Portugal)

**Renata Jaworska & Marcus
Schwier (Poland/Germany)**

Claudio Beorchia (Italy)

Coming up next, we are going to work all together in a "co-creation" lab to start developing art-based activities. Artists' residencies and workshops with various audience groups will follow in the participating museums in Athens, Poland and Slovenia from this fall, with further planning depending also on the Covid-19 pandemic.
